About Myself

My name is Albert Cheng

With a specialized focus on interior design for retail spaces, hospitality, workspaces, and healthcare facilities, I curate environments that captivate, inspire, and elevate human interaction.

Over the last decade, I have led a team of talented designers working as a studio, aiming to combine creative flair with functional expertise to craft spaces not only reflect our clients' visions, but also exceed their expectations.

I believe every space has its potential to tell a unique story, and I'm here to bring those stories to life.

Welcome aboard.

Albert Cheng

My architecture and interior design projects have made a mark in major cities across China and overseas. From dynamic retail spaces and elegant hospitality to practical healthcare facilities and contemporary office spaces, each project reflects his passion for innovation and dedication to crafting immersive environments that resonate with my clients' visions and aspirations.

Over the last ten years, my design studio, where based in Shanghai China, has completed projects in these cities:

China: Beijing, Shanghai, Hong Kong, Hangzhou, Shenzhen, Tianjin, Chongqing, Hefei, Harbin, Jinan, Fuzhou, Zhengzhou, Hohhot, Baotou,
Overseas: Jakarta Indonesia; Bangkok Thailand; Irvine USA; Vancouver Canada.

About Myself

“In the realm of creativity, understanding the WHY serves as the compass guiding the paths of the HOW and WHAT, infusing them with purpose and depth.”

A hand-drawn architectural sketch of a building facade, possibly a tower or a modern structure, rendered in pencil or light ink. The drawing features a grid pattern and various annotations. At the top right, there are handwritten labels: "240000 m.", "230000 m.", "Restaurant", "desk in collage", "The side", and "The Room". The sketch is partially obscured by a dark, semi-transparent overlay on the left side of the image. The signature "About Frank" is written in a cursive script at the bottom right of the sketch.

Albert Cheng

A Chinese-born Canadian architect, who has been living in China for over 18 years.

Mr. Cheng obtained his Bachelor's degree in Environmental Design and Master's degree in Architecture from Dalhousie University in Canada, and subsequently worked for several world-renowned architectural firms. He moved to Beijing on the eve of the Beijing Olympics and became one of the first professionals in China to obtain membership in the US Green Building Council as a LEED Accredited Professional.

At the age of 33, Mr. Cheng was responsible as a lead designer for a landmark project in Beijing, a twin towers each 150 meters high, in the southern area of the Olympic Park adjacent to Beijing's central axis. After the construction of the twin towers was completed, he co-founded the architecture & interior design company, EICO SPACE.

While Mr. Cheng has designed many landmark architectural projects, he always sees architecture as a supporting role within the urban context, placing people and activities within the space as the main focus. His philosophy on design is simple: "Why Design?" He believes that in the creative process, one must first seek "Why," followed by "How" and "What" in order for the design to have value.

Clients Mr. Cheng has served include the Government of Canada, the Public Health Agency of Canada, the Canadian Imperial Bank of Commerce, Nokia, Microsoft, and HP, among others.

Currently serves as the Project Director and Chief Architect of EICO SPACE for over ten years, Mr. Cheng delves into how internet interaction design shapes traditional architecture and lifestyles, exploring what he calls "the art of life" – creating spaces that foster dialogue between individuals and their environment.

02 Storefront Area

2.3 Poster (ref section 5.3)

Application Details:

The image is square with rounded 100mm radius corners displaying a promotional WonderMind image content. Internally LED light strips are evenly distributed with a color temperature of 5000K.

*Please note that this image is for illustrative purposes only.

Primary Material:

UV translucent soft film

LEGEND/NOTES:

- ① Large illuminated ad light box
- ② White latex paint
- ③ Gray Tile

16

04 Space Standards

4.2 Classroom (Upper Level)

Primary Materials:

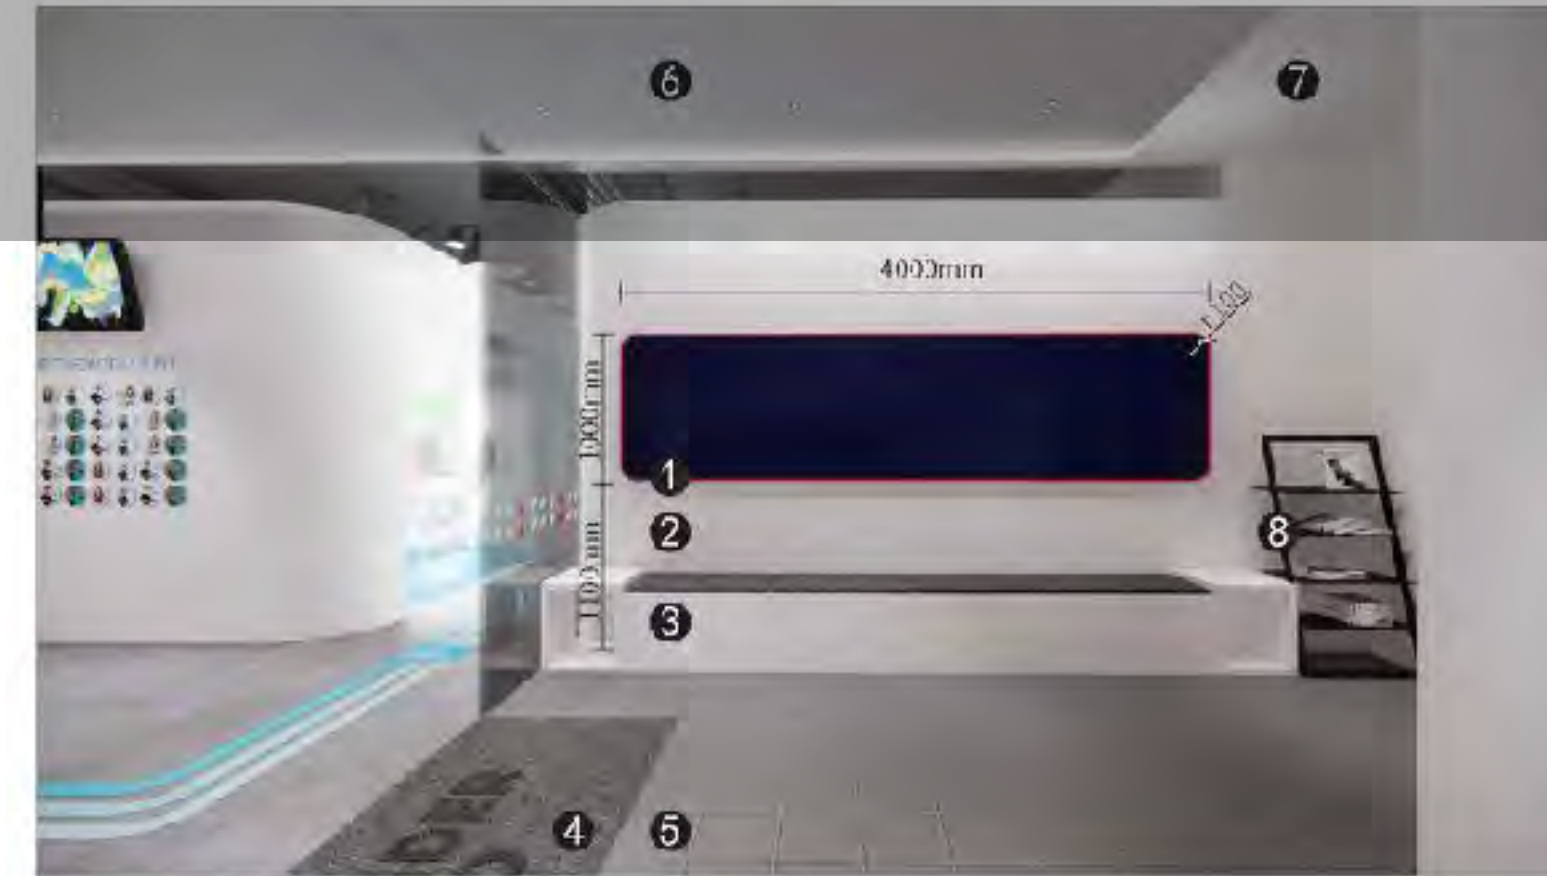

- Ceiling: Gypsum board
- Walls: White latex paint, white protective panels, ultra-clear tempered glass, white back-painted glass whiteboard
- Flooring: Blue vinyl flooring

FFE

- Integrated desk and chair units
- Linear pendant lighting fixtures w/ direct/indirect illumination
- White protective panels
- Magentic panels
- Interactive whiteboards

02 Storefront Area

2.4 Company Info (ref section 5.5)

Application Details:

The corporate information display is placed on a prominent and visually complete wall near the entrance, with rounded corners having a radius of 100mm. It contains information about the WonderMind corporate brand and educational philosophy.

Note: Spot lighting can be installed above the corporate information display for extra illumination.

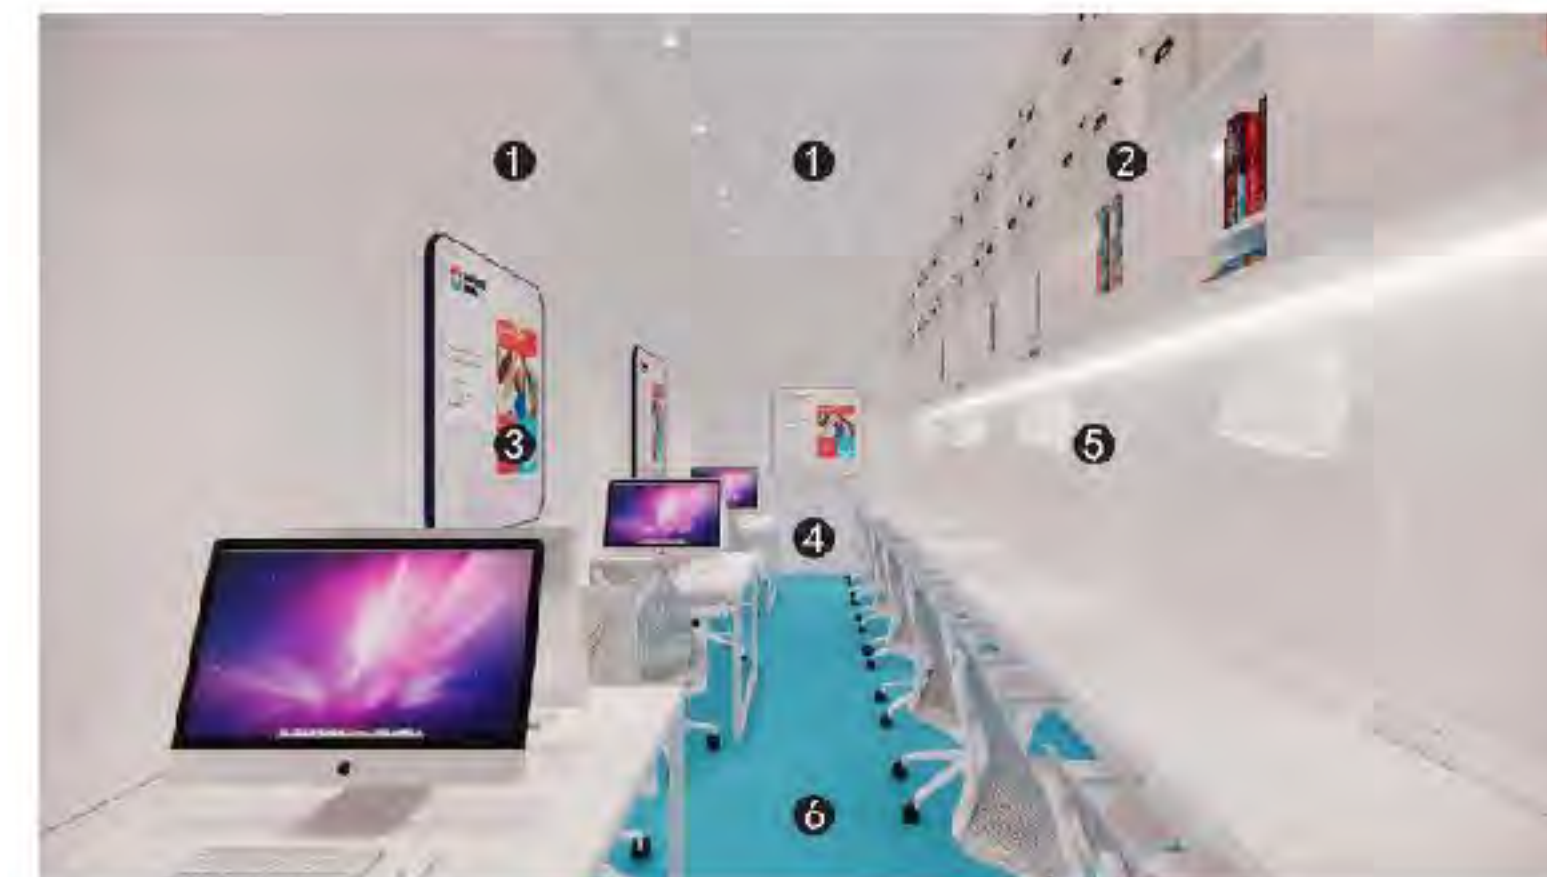

LEGEND/NOTES:

- ① Company info
- ② Bookshelf
- ③ Seating Bench
- ④ Gray Walk-in mat
- ⑤ Gray Tiles
- ⑥ Extended Ceiling
- ⑦ White latex paint
- ⑧ Bookshelf

17

04 Space Standards

4.3 Office

Area Description:

The office is recommended to have 12 or more workstations. The walls should be equipped with protective panels. If ceiling height allows, consider installing tall wall cabinets and movable ladders to increase storage space.

Primary Materials:

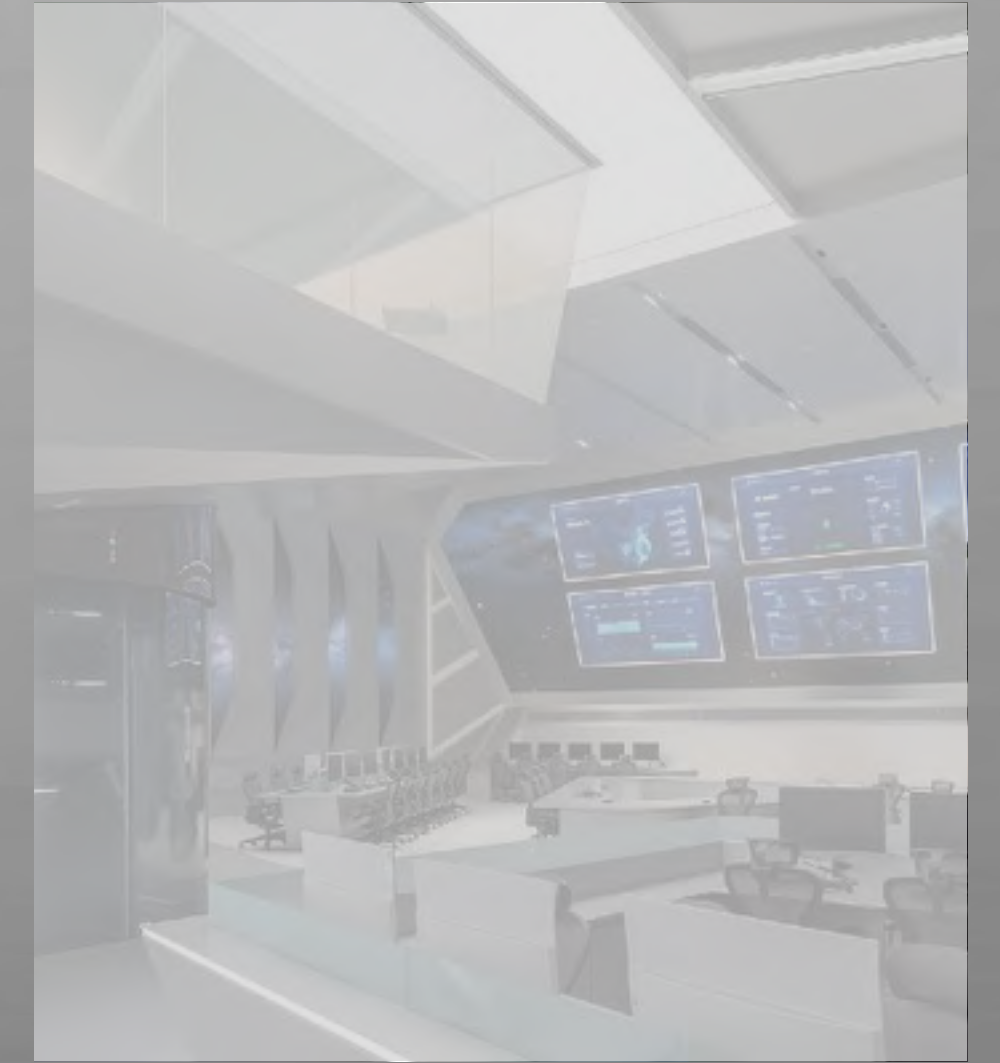

- Ceiling: Exposed white latex paint
- Walls: White latex paint + white protective panels + whiteboard
- Flooring: Blue vinyl flooring

FFE

- White protective panels
- Office desks and chairs
- Track lighting/wall lamps
- Wall mounted cabinets
